

Awarded at Gourmand World Cookbook Awards:

“Best drink book in the world”

A unique book about the spirit of the year

Grappa: Italy Bottled contains all you ever wanted to know about the Italian spirit grappa. The book is the first of its kind, revealing everything there is to know about grappa—the kinds, the production process and the history, all in a prize-winning book full of beautiful photos by the world’s #1 grappa expert, Ove Boudin.

Grappa: Italy Bottled is compulsory reading not only for the experienced grappa lover, but for everyone with an interest in Italian wine and cuisine or a love for Italy in general. Grappa and its eponymous book, is an essential part of *La cucina Italiana* and the slow-food-movement—for many a forgotten part, or rather a part yet to be discovered. Made of grapes and with a wide and nuanced palette of flavor sensations, grappa is the natural spirit segue for the passionate wine drinker.

The author about grappa: “Real grappa will never be mainstream. Real grappa is human, like life itself. It changes. It is honest and sincere. Sometimes rough and cheeky, often surprising, captivating and breathtaking. Never ingratiating. A proud and self-confident character waiting for you to make the first move.”

“This artful book is a must for any grappa, brandy, or spirits lover.”

**Bill Owens, President of the
American Distilling Institute**

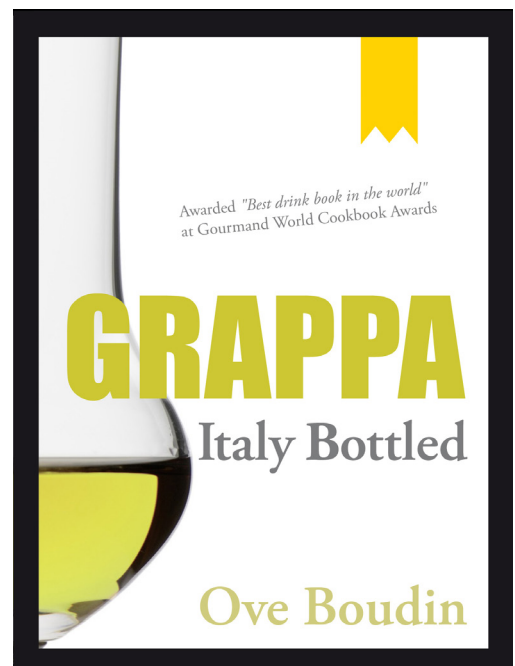

“Grappa: Italy Bottled is by far the best and most comprehensive grappa book currently available in English.”

**Camper English,
Publisher of Alcademics.com**
